#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the manner of use of a portion of the waters of an underground source as heretofore granted under Permit 78657, is issued subject to the terms and conditions imposed in said Permit 78657 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under Permit 27006, Certificate 8826; Permit 27007, Certificate 8827; Permit 27008, Certificate 8467; Permit 28390, Certificate 9238; Permit 52295, Certificate 15557; Permit 74765, Permit 78812, Certificate 19510; and Permit 84795 shall not exceed 22.4 acre-feet annually, sufficient to water 1000 head of cattle.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **not to exceed 0.0063 cubic feet per second and 4.48 acre-feet annually, or sufficient to water 200 head of cattle.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 2 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

September 2 2017

Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes or drilled well, pump, and motor, etc.)

Drilled well, pump, motor, pipelines and troughs.

12. Estimated cost of works \$10,000.00

13. Estimated time required to construct works Well drilled under Permit 78657

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing)

Drilled well, pump, motor, pipelines and troughs to supply water to 200 cattle within the proposed place of use.

The applicant indicates that something went wrong during the process of drilling the well under Permit 78657 that restricted the flow from the well. She did obtain a driller to refurbish the well, however even after having the well refurbished it will still only pump minimal amounts of water. She estimates the cost of drilling the new well and the attempts to refurbish the well at approximately \$250,000. She has determined that it will be more cost effective to try and obtain additional waters from the well located at the original point of diversion of Permit 78657 which was Permit 66816. We are filing this application to change the manner of use of a portion of Permit 78657 in order to utilize the small amounts of water this well is capable of pumping for stockwater purposes and also filing an application to change the point of diversion of the remaining portion of Permit 78657 back to it's original point of diversion, being the well under Permit 66816, in order to attempt to utilize this original well for the irrigation of the total amount of acreage permitted.
